COLLECTION GROWS . . . The large collection of trophies which has been collected during the past few years by the Torrance Mounted Police was augmented recently by these two trophies awarded to the group during the Palos Verdes Fiesta. Here Police Chief Percy Bennett displays the perpetual trophy on the left which the city's mounted group get to retain this year, and a permanent trophy for its winning entry. (Herald Photo)

NORTH HIGH LIGHTS

North High presented the Third Annual Science Days April 20 and 21. The Science Fair was the biggest science exhibition ever put on by any school in the Torrance Unified School District. Everyone on campus was able to see a large portion of the fair, which was only open to Science students last year. A total of 169 industries and organizations were invited to participate.

There was a night session held giving interested Saxons the opportunity to take in any part of the fair they may have missed during the day. At this time parents were also urged to attend and gain in Scientific knowledge.

Several hundred eighth grade students from the 11 schools in the North High attendance area visited North and attended several of the exhibits by Saxons. One thing which interested all Saxons was the model Vanguard satellite on display.

SAXONS WHIRLED "Around the World" to the rhythm of the North Dance Band at the G.A.A. Backwards Dance last Friday night. Decorations designed to carry dancers to the far corners of the world included a Dutch windmill, a grass African hut, and a gigantic Japanese mural. The entrance of the gym was fashioned in the manner of an airliner; a stewardess at the door welcomed all to their evening adventure.

JERRY DUNCAN has been selected as the A.F.S. Foreign Exchange student from North High. Jerry would like to go to Germany because he speaks a little German and he has heard it is one of the cleanest and prettiest countries

AN ANSWER TO THE PRESSURES OF MODERN LIVING

To those troubled with the fears, tensions, and anxieties of modern living, Christian Science offers new hope and healing.

Men and women in all walks of life have found that spiritual understanding of God and man, as revealed in Christian Science, enables them to solve the pressing problems of daily life more successfully. They are proving—many to a remarkable degree—that Christ Jesus' method of overcoming sin, sickness, and lack is completely practical today.

Learn what this can mean for you by attending this free lecture entitled:

"CHRISTIAN SCIENCE: PRACTICAL CHRISTIANITY REVEALED AND DEMONSTRATED"

by Clifford R. Nysewander, C.S.B., of Indianapolis, Ind. Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

8:00 P.M., Friday, May 1, 1959
 First Church of Christ, Scientist
 Manuel Ave. and 218th St.
 Torrance, California
